

Vince Russel Alimagno

WEB DEVELOPER

West Bay, Cayman Islands | +1 (345) 549 8184 | alimagno.vince@gmail.com

SUMMARY

Vince is a Web Developer with over one year of experience at Accenture, where he has undergone extensive training in modern web technologies including HTML, CSS, JavaScript, Tailwind, and React. He also has hands-on experience working with Adobe Experience Manager (AEM), particularly AEM Guides, Adaptive Forms, and AEM Forms Designer. With nearly a year of real-world experience authoring AEM Guides, he has developed a strong foundation in creating structured, responsive web content. Adept at problem-solving and continuous learning, he is committed to growing within the field of web development, with a keen interest in projects that integrate design, technology, and user experience. Professionally, he aspires to deepen his expertise in front-end development and contribute to innovative digital solutions.

PROFESSIONAL EXPERIENCE

Accenture | U.S. State Government Project

Accenture, Uptown BGC, Philippines

AEM Guides Author

Feb 2025 - Aug 2025

- Authored over 100+ web manuals together with a team, applying CSS and custom styling using tags.
- Used a conversion tool to transform FrameMaker documents to XML, then reviewed and validated each converted file to ensure correct content, formatting and structure.
- Handled content authoring tasks including layout, structure, and design within AEM Guides.
- Performed smoke testing for websites, validating navigation, URL link, icons, and other front-end elements.

Accenture | U.S. Investment Management Company

Accenture, Uptown BGC, Philippines

Application Developer

Aug 2024 – Jan 2025

- Designed and integrated interactive and responsive forms using AEM Adaptive Form.
- Utilized AEM Forms Designer for complex form requirements.
- Collaborated across teams to provide support during critical development phases.
- Assisted a team that used AI tools to convert Sass code to Java and successfully resolved compilation errors by identifying and correcting issues in the converted code.
- Designed and developed a custom reusable React component for the SPA and effectively utilized Git for version control and collaboration.

DOST-ITDI

Taguig, Metro Manila, Philippines

IT Intern

Aug 2023

- Developed a dynamic website using PHP and MySQL. This website allowed users to upload and organize their files seamlessly, while also providing the functionality to create and manage documents effectively.
- Collaborated with team members to develop and implement the file management system.
- Regularly communicated with the supervisor to discuss progress and receive feedback.
- Completed task assignment assigned by supervisor in a timely and efficient manner.
